

Environmental Policy

Our Commitment

Ace acknowledges its responsibility to safeguard and positively contribute to the environment and the communities within which we operate. We aim to minimise the impact of our operations through the way we conduct our business, promoting sustainable waste management practices and integrating such practices into our business activities.

Our Objectives are to:

- Operate within a framework of values to safeguard the environment
- Target our efforts to reduce our negative environmental impacts by operating a comprehensive integrated management system
- Set environmental objectives and targets on an annual basis
- Monitor, audit and review our performance to ensure continuous improvement
- Meet or exceed our legal requirements, to prevent pollution and comply with approved codes of practice
- Involve our employees on environmental issues and raise their awareness of their responsibilities under the law and this policy
- Require our contractors to operate to the same standards as we do

We Aim to Contribute by:

- Promoting sustainable waste management - engaging with local government and other establishments to drive forward standards
- Provide services that take society's wastes and convert them to useful materials thereby reducing demand on virgin resources and reducing the need to send waste to landfill
- Continually seeking to reduce our operational impact by investing in more efficient vehicles and regularly reviewing the effectiveness of our activities

Responsibilities

- The Board will provide Environmental Leadership; and will ensure that their decisions reflect this policy statement
- All our employees have a responsibility to the company and the communities within which we operate.
